

Digital Transformation and Workplace Learning

NYP NANYANG
THE INNOVATIVE POLYTECHNIC

In an era of rapid technological change and global value chains where business models are changing rapidly, the Masterclass aims to assist employers to take ownership of their employees' skills and training, as well as be open to embrace the need for digitalisation to benefit their own companies to grow and thrive.

They will have the chance to learn from C-Suite executives of leading local enterprises in the retail and F&B space.

Experts will share deep insights on the challenges of leading digital transformation for organisations and proven recommendations on how to overcome them, particularly in the drive for Singapore to be a Smart Nation.
